

Fraz Liaqat

MERN Stack Developer | React.js Developer | Full-Stack Web Developer
Lahore, Pakistan | frazliaqat1116@gmail.com | +92 308 1796116 | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with around 1 year of hands-on experience building responsive, scalable, and production-ready web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in REST API integration, reusable component development, client-based projects, debugging, and performance optimization. Strong problem-solving ability with practical experience in Git-based team collaboration and full-stack application development.

WORK EXPERIENCE

Orzeh Technologies

September 2025 – Present

MERN Stack Developer

Lahore, Pakistan

- Developed and maintained responsive web applications using React.js, TypeScript, JavaScript, and REST API integrations.
- Built reusable UI components and improved frontend structure for better scalability, maintainability, and performance.
- Worked on client-based projects by implementing modern interfaces, API-connected features, and optimized user experiences.
- Developed and contributed to the official Orzeh Technologies website using React.js with a clean and responsive design.
- Collaborated with team members using Git/GitHub and participated in debugging, feature updates, and technical improvements.

AiBee

July 2025 – November 2025

AI/Software Development Intern

Remote

- Built automation workflows, chatbot features, and API-based software solutions using Python and web technologies.
- Worked with LLM integrations, backend APIs, testing workflows, and technical documentation for internal tools.
- Strengthened practical understanding of API integration, data handling, debugging, and software development workflows.

PROJECTS

Orzeh Technologies Website | *React.js, TypeScript, REST APIs*

- Developed the official company website with responsive UI components, modern layouts, and optimized frontend structure.
- Implemented reusable React components and improved page consistency, responsiveness, and user experience.

AI Social Media Automation Platform | *React.js, Node.js, Express.js, APIs*

- Built a full-stack platform for generating, managing, and publishing social media content through API-based workflows.
- Developed dashboard screens, frontend flows, backend-connected features, and integrations for multiple social platforms.

Research Management Portal | *React.js, Node.js, MongoDB*

- Developed a client-based portal for managing research workflows, user interactions, and structured data records.
- Implemented responsive frontend pages and REST API-based backend operations for efficient data management.

SVR (Speech-to-Voice Recogniser) | *React.js, Node.js, MongoDB, IoT, TensorFlow*

- Developed an AI-powered gesture-to-speech system using IoT sensors, machine learning, and full-stack web technologies.
- Built a React.js dashboard to display live gesture results, sensor monitoring, speech playback, and gesture history logs.
- Implemented REST APIs, real-time data handling, and database storage for gesture recognition workflows.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration

Databases: MongoDB, Mongoose, MySQL

Tools: Git, GitHub, Postman, VS Code, Vercel, Netlify

Core Skills: Full-Stack Development, Debugging, Code Optimization, Problem Solving, Team Collaboration

EDUCATION

Information Technology University

Lahore, Pakistan

Bachelor of Science in Computer Science

Expected Graduation: 2027

CERTIFICATIONS

Full Stack Web Development – Udemy

Foundations of Artificial Intelligence – Coursera
